

Chamber-Mate V - Grey

Our revolutionary Chamber-mate V is specially designed to clean and deodorize contaminated air without using harmful chemicals.

How does it work?

Chamber-mate uses 2 of nature's own purifying agents, namely Sun and Ozone, to provide risk-free protection from objectionable odours, nicotine smell, airborne micro-organisms and many more

Benefits:

- Effective - Air is drawn into the chamber which can be tailored to meet room air changes.
- Economical - Cost is generally less than other alternatives.
- Safe-Virtually no risk of accidental ultra-violet exposure of occupants in treated area and no chemicals to contend with.
- Trouble-free - Operation is simple and straightforward, with little or no installation.
- Versatile - Relatively portable and can be applied to various areas as needed.
- Low maintenance - Half-yearly lamp replacement and periodical cleaning, that's all required.
- Silent - Silent operating

Applicable to these areas :

Kitchens Dining Rooms Restaurants Offices Lounges Karaoke Rooms Pubs Discos Toilets (Home/Public)
Hospital Wards Bin Centres Places with Central Air-Conditioning

Specifications :

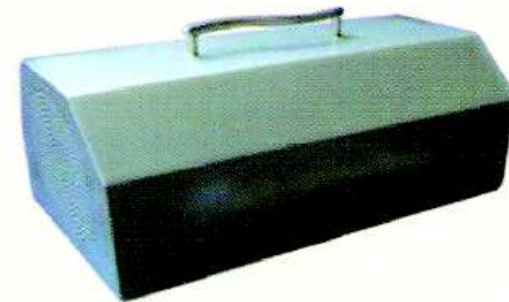

Colour : Grey
Mounting : Horizontal
